

# Case Study - Colt Telecom

For the 2002 annual report Colt wanted to feature the real people that make up the organisation across Europe.

Over a week we toured 4 of their major centres, in Paris, Milan, Frankfurt and Copenhagen, and shot as many workers on site as the schedule allowed. All the pictures were used as duo tones throughout the report which was designed by SPLIT of Covent Garden. Shot entirely on digital we were able to e-mail progress shots back to London at the end of each day.
